

Commercial Delivery Parking Pricing Project

Agenda today

- Project overview
- Discussion with you
 - Loading / delivery challenges you see
 - Suggestions of issues to address in project scope

Commercial Delivery Parking Pricing Project

- Received FHWA Value Pricing grant to test making commercial vehicle loading zones more efficient in the downtown Seattle area
- Implement pilot project with:
 - innovative technology
 - variable pricing strategies
- Technology tools:
 - in-space sensors that detect vehicle presence
 - smartphone app / web access with real-time availability information

Commercial Delivery Issues

- Loading zones often full
- 30-minute time limit not enough time
- Mix of delivery trucks and other vehicles
- Other issues or concerns?
- How can we work together on this project?
